

NESCENS ANTI-AGING COSMECEUTICAL TREATMENTS

Formulated under the supervision of Prof. Jacques Proust, the Nescens range of cosmeceuticals offers a resolutely innovative anti-aging skincare approach. Each Nescens preparation includes selected ingredients whose anti-aging properties are scientifically established. To achieve the highest degree of effectiveness, these active compounds are incorporated into Nescens product preparations at optimal concentrations.

A high-performance anti-aging treatment system

A combination of exclusive anti-aging massages and the biological properties of cosmeceutical preparations endow Nescens treatments with unique anti-aging bio-mechanical effectiveness. Combining technicality with absolute comfort, the Nescens treatments develop all their potential when dispensed in programs or closely-spaced sessions. Suitable for women and men.

Comprehensive customer care

Spa Nescens treatments are designed to act over time and offer personalized support, with age-related skin concerns at the center of every Nescens treatment protocol.

A diagnosis with preventive and corrective treatment

An in-depth analysis of the skin serves to establish a personalized anti-aging treatment program for visible and sustainable improvement over time.

Step-by-step cell regeneration

The effectiveness of the Nescens cosmeceutical corneum, right the way down to approach ensures a complete renewal of the stratum corneum, right down to the deep structure of cells.

An exclusive targeted massage technique

Your Nescens therapist determines the zones to be specifically treated and re-contoured. The massage is personalized to obtain the desired effects: draining, detoxifying, decongesting, lifting, firming, toning, redensifying and revitalizing. The dynamic Nescens techniques help chase away signs of fatigue, regenerate the quality of the muscle fibers, and restructure facial contours.

Revitalized, deeply rejuvenated skin

The results are visible immediately after the first treatment. Cellular tissue is intensely reconstituted and resurfaced. The face, neck and chest look noticeably younger. Lines appear to be smoothed and reduced.

NESCENS FACIAL COSMECEUTICAL TREATMENTS

PREVENTIVE CARE TREATMENTS

Maintains the hydrolipidic balance, smoothes the first expression lines and preserves the skin's radiance.

Anti-aging preventive care treatment – Moisturizing

This treatment intensely hydrates face and neck while restoring the skin's natural moisturizing factors. It helps the skin's youthful appearance.

CHF 210

Anti-aging preventive care treatment – Peeling

A balance-restoring treatment to refine the complexion and regulate excess sebum. It includes in-depth cleansing, resulting in clear, glowing skin.

1 h

CHF 210

Anti-aging preventive care treatment – High Tolerance

Restores the skin's natural functions and prevents age-related cellular damage, while ensuring comfort for the most sensitive skin types.

1 h

CHF 210

CORRECTING CARE TREATMENTS

Treats established wrinkles, firms the skin, restoring a glowing, smooth complexion.

Anti-aging correcting care treatment – Firmness

This revitalizing treatment restores the elasticity and firmness of the skin, intensively regenerates the skin structure of face, neck and chest.

1 h 30 min

CHF 260

Anti-aging correcting care treatment – Resurfacing

This "new skin effect" treatment promotes tissue renewal. Revives cellular cycles, smoothes the skin's micro-relief and improves the skin's natural defenses. Wrinkles and signs of fatigue fade. The complexion gains in radiance.

1 h 30 min

CHF 260

Anti-aging correcting care treatment – High Tolerance

This treatment deeply soothes and replenishes reactive skin structures. The main youth makers are improved: resistance, softness and comfort.

1 h 30 min

CHF 260

REPAIRING CARE TREATMENT

Offers a comprehensive anti-aging strategy, combining performance and well-being.

Anti-aging corrective care treatment eye contour

Nescens research has brought together 30 active ingredients in an original gel mask. Its texture is carefully worked by means of targeted smoothing and draining operations designed to treat the fragile eye contour tissues. Signs of fatigue and signs of advancing age (dark circles, bags, wrinkles) are mitigated. The gaze is lit up with a youthful glow.
